

## Copyright release by presenters to ASC

*To allow ASC to further its aims in promoting the exchange of knowledge and experience, speakers are asked to complete this copyright release form, which gives ASC permission to publish presentations and papers from its conferences. ASC may also make and release audio and/or video recordings from its events, for which permission is also sought.*

*ASC is a non-profit organisation that will not seek commercial gain from presenters' content. This will be made available either free or charge, or subject to a nominal charge to cover any costs involved in providing physical media.*

*In order to allow presenters to remove any material from the presentation they gave which is confidential or for which they do not have permission to publish on the web or in print, presenters may submit a revised copy of their slides within five working days of the event. ASC will publish the latest version of each deck of slides received. Presenters will also be able to request for specific sections to be removed from video or audio transcripts, for the same reasons, and ASC may at its discretion remove the entire presentation if the content is no longer comprehensible.*
